## What is the quickest way to get a straight, white smile for the holidays?

A beautiful smile is a great gift for yourself or someone you love, and the easiest option is an innovative treatment called *Lumineers*.

Lumineers are a type of porcelain veneer that is placed over your natural teeth for an enhanced look. Lumineers offer the following advantages:

- A permanently white smile, as porcelain is not as prone to staining as tooth structure
- The lumineers process is convenient and virtually painless
- A great cosmetic solution for stained, chipped or discolored teeth
- Can hide misalignments or unwanted spaces without the use of braces
- Can be placed over existing crowns or bridgework without having to replace them

Call today to schedule for your holiday smile. For additional information and special offers, please visit our website at **DannerDental.com**.
